LETTER OF ACCEPTANCE

Dear Dr Diamond,

We are pleased to inform you that you have been formally admitted to the **Executive Master of Science in Longevity (EMSc Longevity)** at the Geneva College of Longevity Science (GCLS).

Your selection reflects our confidence in your professional experience, academic qualifications, and demonstrated commitment to advancing evidence-based longevity and preventive medicine. As a student of this programme, you will join an international cohort of physicians, scientists, and health professionals dedicated to shaping the future of healthy ageing and translational longevity practices.

The EMSc Longevity is a Swiss postgraduate academic programme delivered in a flexible, online-first format, integrating leading global faculty across geroscience, biomarkers, regenerative medicine, biogerontology, digital health, and health-span optimisation. Upon successful completion of all modules, examinations, and your Master's thesis, you will be awarded the Executive Master of Science in Longevity, representing 60 ECTS according to European academic standards.

Your admission grants you full access to:
- All live and on-demand teaching modules
- Faculty-led discussions, webinars, and expert Q&A sessions
- The GCLS international academic community
- Participation in the GCLS Semester Symposia and graduation ceremony

We are delighted to welcome you to the programme and look forward to supporting your academic journey.

Warm regards,

Prof. Dominik Thor
President
Geneva College of Longevity Science
